# Housing firm withdraws planned P3.4-billion IPO

By Rose C. Martinez

PHILIPPINE HOUSING FIRM PHILHOM withdrew its plan to go public in a P3.4-billion initial public offering (IPO) after the stock market sagged in the wake of Lehman's collapse. The firm's withdrawal was announced last Wednesday and came less than a week after the IPO was scheduled to be launched.

PHILHOM, which was formed in 1999, is a joint venture of the Philippine National Bank (PNB) and the Philippine Housing Corporation (PHC). The firm's IPO was scheduled to be launched in the second half of 2008, but it was delayed due to the global financial crisis.

PHILHOM's IPO was planned to be one of the largest in the Philippines, with a target of P3.4 billion. The firm's IPO was planned to be launched in the second half of 2008, but it was delayed due to the global financial crisis.

# Making the agriculture budget work

NO FREE LUNCH

JOHN F. MURPHY

THE AGRICULTURE budget is a complex and often misunderstood document. It is not a simple matter of allocating funds to various agricultural programs. Rather, it is a reflection of the broader economic and social policies of the government. The budget is a tool that can be used to promote growth, create jobs, and improve the lives of Americans. It is a tool that can be used to address the challenges of the future. It is a tool that can be used to build a better future for all.

# Robredo to LGUs: Disclose finances

MANILA, Jan. 11 (AP) — President Benigno Aquino III has ordered the disclosure of the financial records of all local government units (LGUs) in the Philippines. The order, issued on Jan. 10, requires all LGUs to submit their financial statements to the Department of Budget and Finance (DBF) for review and approval. The order also requires LGUs to disclose their financial records to the public through their websites. The order is part of the administration's effort to increase transparency and accountability in government spending.

## Garlic and fish oils, ginger help fortify one's immune system

**W**ITH AN estimated 200 million people worldwide suffering from the common cold, it's no wonder that people are looking for ways to boost their immune systems. One of the most popular natural remedies is garlic, which has been shown to have antiviral and antibacterial properties. Another popular remedy is fish oil, which is rich in omega-3 fatty acids that can help reduce inflammation. Ginger is also a natural anti-inflammatory and can help with pain and swelling.

### Garlic: A natural antibiotic

Garlic has been used for centuries as a natural antibiotic. It contains a compound called allicin, which has been shown to have antibacterial, antiviral, and antifungal properties. Studies have shown that garlic can help fight off the common cold, flu, and even some types of cancer. It can also help lower blood pressure and cholesterol levels.
